

September 17, 1971

Dear Al:

Thanks for your follow-up letter concerning the Asbestos Information Association meeting. We have already declined the invitation on the theory that we have no active interest in the asbestos business or in products that involve the use of asbestos. For these reasons we really wouldn't fit in this meeting.

Our sympathies of course are with any problems with which the industry may be faced and it is my hope that your deliberations will be effective.

Best personal regards.

Sincerely yours,

Mr. Albert H. Fay
