Englewood Cliffs, N. J. 07632
(201) 894-1111

January 27, 1978

Mr. C. Welshman
Rogers Corporation
Rogers, CT 06263

Dear Carl:

I have reviewed with our technical and production groups at the Mine, your report that our shipment of PAPERBESTOS #5 to your Rogers' plant, shipped January 10, 1978, Maislin Van 162, was improperly glued. The importance of gluing your shipments has been reiterated to all appropriate personnel. We regret any inconvience this caused you.

Enclosed for your review are copies of our latest "crystal balling" for 1978, and the Asbestos Information Association's December 1977 News and Notes. I hope you find them of interest.

Very truly yours,

Roger Hattersley
Special Representative
Asbestos Fiber Sales
