Attn: Harley Bowman

Dear Harley,

Thank you for your interest in Asbestos Control Technology, Inc. Enclosed, you'll find the information you requested.

ACTI is North America's oldest and largest commercial source of asbestos safety equipment, supplies, and educational materials. The general concept of the service we offer is best expressed in our reputation as "America's Asbestos Safety Supermarket." We understand that persons confronted with an asbestos abatement project often need what they need now. Our company stocks virtually every item required for dealing with any size asbestos problem, whether it's a small repair on an asbestos-covered pipe to a massive asbestos removal project.

We carry all state-of-the-art equipment used in carrying out asbestos abatement work and we have large inventories of all supplies used in such work. We also stock a complete line of asbestos-related books and video training tapes that can help newcomers quickly understand how to deal with all aspects of an asbestos problem.

Because we maintain a central national data processing center linked to 15 strategically placed warehouses across the country, we are able to process your order and deliver to any location in the continental U.S. in two days.

If you have any further questions on our products or services, please don't hesitate to call.

Sincerely,

Larry Goldstein
Regional Sales Manager
