

PACO TEXTURES MEMO

TO: Milton Elms

FROM: Doug Merrill

April 25, 1978

SUBJECT: BAN ON SALE OF PATCHING COMPOUNDS CONTAINING ASBESTOS

The attached memo explains the ban that affects Paco Joint Compounds containing asbestos. If there are any products under this ban still remaining, they should be identified at this time so that action may be taken to meet the June 11 th dead line.

Please advise if I can assist in this matter.
