Re: LA-1119 The Use of Lead Isotope Composition as an Environmental Tracer
Isotopes, Inc. proposal mailed to you June 13, 1966.

The American Petroleum Institute has signified an interest in joining with us in sponsoring this project on the basis of a 50/50 split, that is the total lead industry contribution to be \$28,000, of which ILZRO's share would be \$14,040 and with \$14,040 taken from the contribution of the anti-knock manufacturers.

At this time you are voting on funding for Phase I of the Isotopes, Inc. project only.

Please return the enclosed ballot as soon as possible, but in any event no later than July 5th. This project comes to you with a strong endorsement by your staff.

Very truly yours,

from L. Jirak.

I approve the commitment of \$14,040 of ILZRO funds,
plus an equal amount from the contribution of the
anti-knock manufacturers in support of Phase I of
Project LH-119. My approval is subject to the
condition that the American Petroleum Institute
provides an amount of money equal to that con-
tributed by the lead industry, or \$28,080.

I do not approve.
