

SOURCES OF HELP FOR THE SAFETY MAN

offices at 703 Market St., San Francisco, Calif. 94103, and at 270 Madison Ave., New York City 10016

Recognizing the fact that industry's safety problems often require specialized treatment, the Council has divided its industrial effort into sections, each administered by its own executive committee, nominated and elected from the membership within that industry. Each executive committee consists of a general chairman, a vice-chairman, a newsletter editor, and such other officers as may be needed to head the functional committees of the section.

The industrial membership of the Council is organized according to the following industries. Some sections are subdivided into specialized operations or interests:
