MINUTES OF MEETING
OF THE
NAPA BOARD OF DIRECTORS
LAST FRONTIER HOTEL, LAS VEGAS, NEVADA
May 22, 1951

[redacted]

Report of the Supply Committee was made by its chairman, R. L. Turner. It was reported that about [redacted] worth of the fan belts and hose remaining in American Brakeblok's inventory were the responsibility of NAPA. On motion made and seconded and passed by unanimous vote, it was decided that the Detroit Office should try to effect the sale of all or any part of these belts and hose but, if not sold, the warehouses would buy them, the total amount to be pro-rated among the warehouses on our customary basis. Other interesting discussions of subjects by the Supply Committee were reported but no Board action was required or taken.
