PERSONNEL CONTACTED: Dean Adams - Maintenance Superintendent
Keith Long - Assistant Purchasing Agent

OBJECTIVE

Obtain commitment for Pydraul 135-A evaluation.

RESULTS

After discussing the cost savings and quality advantages of Pydraul 135-A, Adams indicated that he has no objection to a trial and will ask the Plant Engineer for approval to start adding our fluid as make-up in their ingot saw. If this application works satisfactorily, he feels that all their equipment could be converted to Pydraul. The potential is about $25,000/year.

Adams will be in touch with the Plant Engineer this week and I will contact them in a few days to confirm the trial and to discuss the timing.

ATTENTION JERRY DAVIDSON: Adams will be in Arkansas during the week of April 29 (the week of our sales meeting) for a meeting of Reynolds' engineers. I asked him to stop by St. Louis on his return trip and look over our facilities. He has tentatively accepted. I know things will be hectic that week, but let's try to roll out the red carpet. I will telephone you soon to work out the details.
