The unified environmental permitting concept and form ought to be featured somehow in our JMA discussions with the SES in January .

Thanks,
Scott

Glad we are making progress.

DOE, EPA and DOI are meeting Monday afternoon to develop a common approach.

Thanks,
Scott

Attached please find a slide deck that describes how EPA could revisit the BART and describes current NGS emissions controls and performance. Thanks for your leadership.

Mike:
Did Dan deal with this already?

Jim

Dan: Happy Monday.

As a follow up to our brief discussion last week, I am wondering if I can bring by Quin Shea, VP of Environment, and Sarah Ball, Manager of Environmental Affairs, Edison Electric Institute, to discuss the Department's regulatory review initiative. Joe Nelson and I visited with Jim Cason in early February on this same topic, and we would have some follow up from that discussion.

Thanks Dan, and we hope to see you soon.

OK. Just wanted to make sure it wasn't the broader reg reform effort we are engaged in.

Jim: This was the meeting request that Marigrace put together with you (and Dan briefly) from last Wednesday.

We are moving ahead and thanks a bunch for your time last week. It was very productive and the EEI folks enjoyed the chance to visit.
