Asbestos Containing

As we both know, there were several shipments containing cartons that had asbestos containing on them. Your letter, of course, has been appreciated in clearing up this matter.

I sure hope that Dupont does not check this material and find any of it to be asbestos containing or we are going to be in an embarrassing position. I also hope that the plant has been advised to see that our cartons are definitely, as you put, obliterated so that this does not happen in the future. OSHA is hard enough to deal with and I certainly don't want to see you in jail.
