DATE

TO: CHICAGO - MacGregor Lead Co.

ATTN OF: Mr. R. K. Felter

COPY TO: Mr. E. G. Blackett
Dr. P. Falk
Mr. W. T. Ries

SUBJECT: Blood Lead Level [REDACTED]

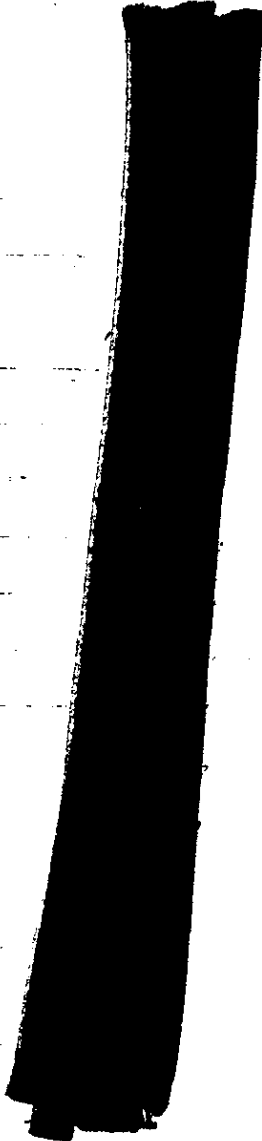

REFERENCE:

In view of the persistent elevation of the blood lead level of [REDACTED], and the recent increase to 0.103 mgm lead/100 gm blood, it is recommended that Mr. [REDACTED] be removed from lead exposure until his blood lead level dips to below 0.080 mgm lead/100 gm blood.

Walter N. Norley, Jr., M.D.

Blood Leads

you are all to be complimented
on the latent blood leads - They
show you all really care.

Name	latent count	previous count
Conato	[REDACTED]	[REDACTED]
Berry	[REDACTED]	[REDACTED]
Tab	[REDACTED]	[REDACTED]
Hankins	[REDACTED]	[REDACTED]
Carroll	[REDACTED]	[REDACTED]
Cross	[REDACTED]	[REDACTED]
Stanford	[REDACTED]	[REDACTED]
Collier	[REDACTED]	[REDACTED]
Turner	[REDACTED]	[REDACTED]
Leves	[REDACTED]	[REDACTED]

might I suggest that [REDACTED]
and [REDACTED] be particularly careful

By the way - we missed out
on the wallet again only by
the men.

PLANT NOTICE

BLOOD LEADS
January 1975

I'm very disappointed in our overall performance. We have six men (50%) above 0.07 with two over 0.08.

There is only one reason - CARELESSNESS.

I expect immediate improvement.
