This is a request to meet with staff not the Administrator, correct?

Importance: High

Robin: Thanks again for reaching out and for indicating some flexibility for the 13th was possible. In fact, all of my folks can come in for a meeting on the 13th, while many companies are off on Friday because of the holiday. If the 10 a.m. slot is still available, that was the consensus choice at our end. Let me know. Best, Quin

P.S., here is a quick rundown of attendees from EEI, though we'll get you something a bit more formal later on:

Chuck Barlow, Entergy

Cari Boyce, Duke Energy

Skiles Boyd, DTE Energy

Maureen Gannon, PNM Resources

Ann Loomis, Dominion

John McManus, AEP

Frank Prager, Xcel Energy

Usha Turner, OG&E

Cathy Woollums, Berkshire Hathaway Energy

Emily Fisher, EEI General Counsel

Quin Shea, VP, Government Affairs

Kathy Steckelberg, VP, Government Affairs

Hi Robin. I need to send a note to about eight folks who are scattered all over the country to see if the April 14th Friday morning slots will work for most folks (but not 3 p.m., as they will want to travel home that day). Are afternoon slots on the 13th definitely out? I just want to have as many potential windows as possible. Let me know either way regarding the 13th as well as 14th, but either I or my assistant, Cynthia Trueheart, will follow up with you by mid-day tomorrow. Thanks, Quin

Hi

Samantha asked me to touch base to find some time to make this work. Friday 4/14 looks best for her. Would 10:00, 11:00 or 3:00 work? if not, we can propose other times/dates. Thanks very much and take care.

Thanks Samantha. I'll have a group of Environmental SVPs/VPs coming in from out of town, so a little advance planning definitely is needed. How is your schedule on April 12, 13 and 14? If you give me some windows that work for you, I can then check OG&E and other schedules to maximize turnout. (As a point of reference, our environmental leadership team is about eight companies.) It also would be useful if you and I chat in advance regarding the anticipated scope of that session. Quin

Quin, I am glad to hear RJ is facilitating that meeting. Let's definitely set a meeting with me and some of my colleagues soon. Is there day next week that works well for you on that front?

Good morning Samantha. Recognizing that the overall situation at the agency remains fluid and a beehive of activity, I nonetheless trust that you are easing in and fully in control!

We've been communicating regularly with OG&E's Sean Trauschke, who in turn spoke recently with Ryan about scheduling a meeting between the Administrator and EEI's environmental leadership CEOs. We'll work directly with Ryan on the specifics of that session. In the interim, however, these same CEOs are requesting that EEI assemble a small group of their senior company staff to come in and meet with you and your colleagues. From our perspective, this

session would focus on key substantive and process (e.g., permitting and siting) issues, as well as the general EPA institutional landscape. When you get a moment, could you call me to discuss this item?

Thanks again for your past courtesies and I look forward to speaking with you soon. Best, Quin

Subject: Following Up on EEI Board Meeting

Samantha: Thanks again for efforts by you, Millan and others on the EPA team in arranging for Administrator Pruitt to address the EEI Board of Directors. The Administrator's remarks were extremely well received and provided ample food for thought going forward. In that vein, during the Q&A session the Administrator requested a list of current and pending milestones in cases impacting EEI's members. An initial list is attached. Importantly, it focuses on items that EEI has traditionally engaged and/or where industry unanimity has been established. Individual EEI member companies may supplement this list with additional priorities related to their local operations.

I hope you find this note responsive to the Administrator's request. I will follow up with you relative to this and other matters we discussed at the EEI meeting.
