Subject 1983 OBJECTIVES - ENVIRONMENTAL DEPARTMENT

Here are the objectives we have established for 1983:

GENERAL

1. Provide high quality, timely support to the plants on environmental and industrial hygiene matters.

AUDIT PROGRAM

2. Complete second round of environmental audits. Initiate in-depth audits at three plants.
3. Conduct industrial hygiene audits at LCCP, Baltimore, LC LAB, and Chocolate Bayou.

SOLID WASTES

4. Assure that all relevant factors, (environmental, legal, and public relations) are properly considered with respect to the BFI North Site.
5. Monitor progress of the Lake Charles landfill project to minimize permitting problems.

WATER

6. Analyze the impact of the new effluent guidelines and provide necessary assistance to the plants in developing long term compliance plans.
7. Monitor the Louisiana water quality program as it relates to the Lake Charles plants.

MEDICAL TESTING

8. Continue to co-ordinate employee medical testing program to maximize its efficacy.

PRODUCT LIABILITY

9. Maintain the MSDSs to include new sheets for new products and reviewing existing sheets for necessary changes.
