RECEIVED NOV 19 1980

Dear Jerry:

Stauffer has been assigned the task of developing a contingency plan for SPI to address further regulatory activity under RCRA, which would impact PVC/VCM wastes. Enclosed is my draft, dated November 17, 1980, of such a contingency plan.

It is my understanding that this and other contingency plans will be considered on December 5, 1980 by the PVC Alternatives Committee.

Sincerely,

A handwritten signature in cursive script, appearing to read "Gary".

Gary L. Ford
Senior Attorney
