

proven high-rate water treatment

in
less space

at
lower cost

Accelator®

The Accelator combines—in a single unit—mixing, coagulation and solids separation. It occupies a fraction of the space required by other types of conventional plants and greatly reduces installation costs. Softening, clarification and stabilization plus highly efficient algae and

bacteria removal are obtained at the highest flow rates because of the Accelator's slurry recirculation and dynamic separation. For full details send for your copy of the informative 28-page Accelator bulletin.

More FREE BULLETINS

(Begin on page 167)

of tubing ranging from plain low-carbon steel to 3% chromium, 30% nickel stainless. TDC 145, Dabcock & Wilcox Co. Tubular Products Div., Beaver Falls, Pa.

48 Pop safety and relief valves for steam air, gas, water, oil and other fluids. Two-color, 11-page catalog. Photos, cutaways, full specs. Circular 803, Lunkenshimer Co. Box 450, Cincinnati 14, Ohio.

PRIME MOVERS & ACCESSORIES

49 Diesel engines in six sizes for industrial, marine and electrical applications. Two-color, 8-page, illustrated application booklet. Caterpillar Tractor Co., Peoria, Ill.

50 Superchargers for internal combustion engines, blower and compressor operations. Two-color, 4-page folder. Photos, specs, tables and graphs. Bulletin 163, Michle-Dexter and Supercharger Division, Dexter Folder Co., Racine, Wis.

51 Diesel engines in sizes from 350 hp. 1800 kw to 3150 hp. 4000 kw for municipal power plants, central stations and industrial plants. Two-color, 8-page booklet. Photos, sectional drawings, specs. Bulletin 324A, Nordberg Mfg Co., Milwaukee 1, Wis.

PUMPS

52 Condensed booklet on products and applications of Worthington line. Two-color, 34-page, illus. catalog. Worthington Corp., Harrison, N. J.

53 Controlled-volume "mini-pumps" for accurate pumping of minute quantities. Two-color, 10-page booklet. Photos, cutaways, full specs. Bulletin 65, Milton Roy Co., 1200 E. Marmad Lane, Philadelphia, Pa.

54 Multi-stage centrifugal pumps for heads up to 650 psi and capacities from 10 to 810 gpm. Two-color, 8-page bulletin. Photos, cutaways, sectional and dimensional views. Bulletin 117-C, Pennsylvania Pump and Compressor Co., Easton, Pa.

55 Mechanical seals for centrifugal pumps, their application, operation and maintenance. 18-page bulletin. Application photos and sectional views. Bulletin 153-10,000, Byron Jackson Co. Pump Division, Los Angeles 34, Calif.

WATER TREATMENT

56 Contact reactor for clarifying and/or softening of water. Illus. booklet, specs and application details. Publ. 5801-A, Cochrane Corp., 17th St. below Allegheny Ave., Philadelphia 31, Pa.

57 Automatically controlled feeding of sulfuric acid and sodium dichromate and continuous flowdown regulation using recording and indicating. Electromech. potentiometer with 40-0-Line control. Illus. Data Sheet No. 54-7, Minneapolis-Honeywell Regulator Co., Wayne and Windrim Ave., Philadelphia 44, Pa.

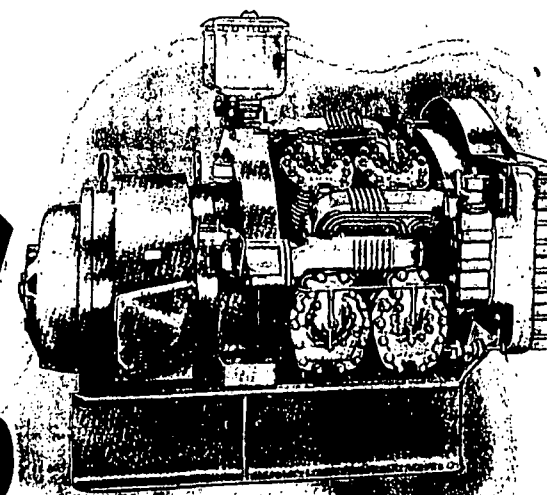

58 Information on factors involved in obtaining useful samples required for proper control of water conditions in a power house. Four-page, illustrated folder. Leaf 31819, Allis-Chalmers Mfg Co., Milwaukee 1, Wis.

MISCELLANEOUS

59 Consumable - electrode welding equipment and processes. Two 3-page illustrated booklets showing application techniques. Line 60A-4033 and GER-516, General Electric Co., Schenectady 5, N. Y.

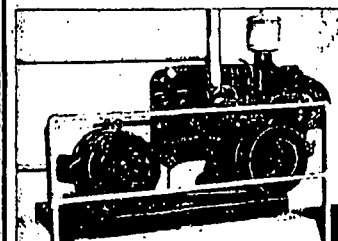

60 Conveying systems for handling cement, pulverized coal, limestone dust, grain, pulverized rock, etc. 18-page bulletin. Installation photos, dimensional sketches, detailed application descriptions. Bulletin PK-55, Fuller Co., Catasauquus, Pa.

JOY WL-80

COMPRESSOR with automatic start and stop control

A Real "Package-Unit"

JOY COMPRESSORS meet any need!

Air-cooled or heavy duty water-cooled; complete range from 1.4 to 8800 CFM, 1/4 to 600 HP.

Joy WL-80's are ideal for the smaller air-requirement jobs, or for de-centralized air supply, etc. These two-stage, air-cooled units are delivered ready-to-go, complete with air receivers, piping and wiring if you wish—just hook them up to power and air lines. Extremely compact and efficient, a WL-80 will fit into any small corner of your plant. You can eliminate long runs of piping; compress the air right where you use it. Available in eleven sizes from 15 to 125 HP, 81 to 641 CFM, with pressures to 125 PSI, for service indoors or out. • Write for Bulletin A-56.

Joy also makes a complete line of Oil-Free Compressors for applications where air must be free of any lubricant. Write for details.
