Re: Conversion of all asbestos  
products to asbestos free by Sept:

① Replace asbestos roofing felt with  
glass mat

- No known problem in beating  
this schedule.

② Jackey, Van Doren / E  
Fronzyshen, Kosteck / NE  
1 new Exempt authorized

③ Estimate <sup>max.</sup> 20M, it pro changes  
at Chester, + Roof plots?

Total of 8. has time at  
Chester.

② Asbestos-Free gasketing, paper,  
and mineralboard.

③ Canichio / E  
New Technician / NE  
Help From SBB R&D as needed

④ Estimate \$20M in PKA charges  
and 16 hrs on paper machine  
plus 8 hrs on mineralboard machine.

Doubt whether customers will have  
time to approve gasketing by Sept.  
even if the properties and costs are  
attractive to them.

For mineralboard, approved simpler  
for such applications as heat insulation  
& behind wood stoves. For use

as gashly, approx may be  
calculated.

Paper may be simplest to  
change. Chester glass not product  
may be usable.
