

MONSANTO CHEMICAL COMPANY

From St. Louis - General Offices ccc R. Moody - ANNISTON
D. B. Hosmer - DHOSM
DATE September 24, 1963
SUBJECT SCHENECTADY VARNISH
BIPHENYL
REFERENCE
TO E. M. Emery
JFQ PLANT

Under separate cover, I am sending you a sample of Biphenyl which we feel you will be well equipped to analyze since you have the new set-up for it. This sample is believed to be a purified product obtained as a by-product from Schenectady Varnish phenol via benzene process.

Could you tell us when the analysis will be available.
