Yes, we want to put the breaks on most FACA efforts until we can get a comprehensive handle on how many there are and what they are doing.

Thanks,
Scott

Scott -- I was disappointed to learn on Monday that the April 27 and 28th meeting of the Advisory Committee on Climate Change and Natural Resources Science (ACCCNRS) has been cancelled. I felt that we had a very good agenda designed for the meeting, and we were looking forward to your participation to discuss emerging priorities within the Department. Can you shed any light on the Department's decision to cancel?

Best,

Bruce

..... and we are looking toward re-chartering the committee around the time the current charter expires.

Thanks,
Scott
