Dear Dr. Kehoe:-

On July 20th, 1938, we wrote you regarding a complaint by the Cooperative G.L.F. Farm Supply of Ithaca, New York, stating that one of their men had developed some stomach trouble which they believed was caused by working around leaded gasoline.

We made a recent call at this point and have found no further developments on this complaint. We told them there was absolutely no basis for their belief, and we feel that our files should be closed on this matter.

Very truly yours,

M. A. Taylor
