Naturally, we want you to aggressively sell TEXTONE on every job where its unique advantages are applicable, but remember to carefully review and observe the limitations of use described in the folder.

Also, we do not intend that TEXTONE acoustical units be used in an Airson installation, as the static pressure may tend to create excessive deflection in the plastic film.

R. L. Wallace
Merchandise Manager
Industrial Roof Decks
and Sound Control

Sent to Industrial List No. 2
and Architect Service.
