Subject: follow-up meeting with EPA on RCRA rule

Importance: High

Hi Patrick,

I hope all is well. I am writing to let you know that I (along with a few others) will be meeting with EPA staff tomorrow at EPA HQ to have another discussion of the regulated community's concern (which lead to our filing suit) with EPA's codification of its enforcement policy in the final RCRA Hazardous Waste Generator Improvements Rule. You may recall that this is the issue we discussed with Betsy Devlin (OLEM) and Katherine Nam (OGC) at the March 8 meeting you attended at the request of Fern Abrams from IPC.

Tomorrow's meeting is from 12:30pm -1:30pm and while I have not yet been sent the details by EPA (location, EPA staff attending, etc.), it would be helpful, and we would be most grateful, if you could attend. As soon as I get the meeting specifics, I will forward them to you. Thank you in advance for your consideration of this request.

Best regards,
Leslie
