INTER-OFFICE
CORRESPONDENCE

Inasmuch as it deals with a medical subject, I should prefer to pass it on to Dr. Kehoe in Cincinnati, who handles all matters of this kind for our company. It is possible he will wish to investigate this himself or have one of his staff do so. On the other hand, he also may feel that one of our safety engineers should call and make a further check of the matter. For that reason I am sending your letter on to him and you will doubtless hear from him in the future.

Very truly yours,

W:GCL

cc: Dr. R. A. Kehoe
