Re: Nevada Power v. General Electric
CV-S-89-555-LOG

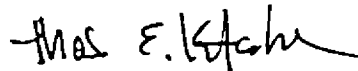

Dear Mr. Alverson:

Pursuant to the court's order, you are notified that plaintiff will file a motion to compel discovery against your client, General Electric, based on that defendant's failure to properly respond to plaintiff's request to admit facts as well as defendant's failure to properly respond to plaintiff's interrogatories.

All attempts to resolve this dispute have been to no avail. Of course, our motion will also seek appropriate sanctions against General Electric.

As always, we stand open to any good faith efforts to resolve this matter and thereby avert the necessity of this motion.

Sincerely,

THOMAS E. KOTOSKE
