The B. F. Goodrich Company

1800 K STREET, N. W. • WASHINGTON, D. C. 20008 • PHONE 202-872-0570

ROBERT D. BUENLER
DIRECTOR OF GOVERNMENT RELATIONS

February 13, 1974

NOTICE OF APPEARANCE TO:

Ms. Joanne Goodell
Attention: Docket OSH 36
Office of Standards
Occupational Safety and Health Administration
1726 M Street, N.W., Suite 203
Washington, D.C. 20210

Please be informed that it is the intention of Anton Vittone, President of the B.F. Goodrich Chemical Company, a division of The B.F. Goodrich Company, Maurice M. Johnson, M.D., Director of Environmental Health, Dr. Roger W. Strassburg, Director of Environmental Affairs, both of The B.F. Goodrich Company, L. B. Crider, Senior Scientist, B.F. Goodrich Chemical Company and Harold J. Fast, Corporate Counsel and Assistant Secretary, The B.F. Goodrich Company, to make an appearance at the hearing to be held concerning the possible hazards of vinyl chloride manufacture and use on February 15, 1974.

Mr. Vittone will present a statement orally which will cover a description of the vinyl chloride industry and The B.F. Goodrich Chemical Company's position in it. This statement will include a description of the production processes used in Goodrich plants. The facts leading to the identification of the four cases of liver cancer at the Goodrich Louisville plant will be presented. He will describe previous toxicological data on vinyl chloride and Goodrich personnel's experience with the use of the monomer and reduction of exposure to it. Lastly, he will comment on the industry epidemiological study and Goodrich's part in it.

It is estimated that his direct presentation will last from 20 to 25 minutes. He will be prepared to answer further pertinent questions assisted by Dr. Johnson, Dr. Strassburg and Mr. Crider.

...in pursuit of excellence

Re: Informal Fact Finding Hearing Concerning
Possible Hazards of Vinyl Chloride Manu-
facturing

Dear Sir:

Although the Firestone Tire and Rubber Co. is not in a position to specify the people it may have appear or the information it may present at the hearing to be held on February 15, 1974 due to the shortness of time within which to prepare specific information concerning the above matter, the Company wishes to file this notice for the purpose of preserving the opportunity to submit information at this hearing.

Very truly yours,

FIRESTONE TIRE AND RUBBER CO.

Docket OSH-36

Notice of Intention to Appear

On January 30, 1974, a Request for Information and Notice of Fact Finding Hearing was published in the Federal Register, Volume 39, No. 21.

The Dow Chemical Company intends to appear at the public hearing noticed in said publication and make an oral presentation of data. Dow's spokesman at the hearing will be:

Dr. V. K. Rowe
Toxicologist
The Dow Chemical Company
1803 Building
Midland, Michigan 48640

Dr. Rowe will present (1) basic toxicological information, (2) Dow's industrial hygiene experience, (3) items Dow has found effective in maintaining safe operating conditions, (4) Dow's experience with analytical and monitoring procedures, (5) health parameters in vinyl chloride workers and (6) suggestions for the future.

Dr. Rowe's presentation will require approximately thirty (30) minutes.

Washington, D. C. 20210

Dear Sir:

Please take notice that Dr. Irving Selikoff, Director of the Environmental Sciences Laboratory, Mount Sinai School of Medicine, City University of New York, 100th Street and 5th Avenue, New York, New York wishes to appear at the informal fact-finding hearing on vinyl chloride on February 15, 1974. Dr. Selikoff will need approximately 20 minutes for his presentation. As Dr. Selikoff has other previously made commitments for later that day, he requests that he be scheduled for the morning, preferably before 12-Noon.

Dr. Selikoff will present information on vinyl chloride as an occupational health hazard.

Sincerely yours,

Steven Wodka, Legislative Assistant

Mr. J. Goodell
Att: Docket OSH-36
Office of Standards
Occupational Safety and Health Administration
Room 208
1726 M Street, N. W.
Washington, D. C. 20210

Dear Sir:

The Oil, Chemical and Atomic Workers International Union hereby files notice of its intention to appear at the informal fact-finding hearing on vinyl chloride on February 15, 1974. The OCAW will be represented by Mr. Anthony Mazzocchi, Legislative Director at the above address. Mr. Mazzocchi will need approximately 15 minutes for his presentation.

Mr. Mazzocchi will present supporting views on the need for an emergency temporary standard to protect workers from the hazards of vinyl chloride. He will also present new epidemiological information that indicates the widespread problem from vinyl chloride.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Steven Wodka".

Re: Attention Docket OSH-36

Dear Ms. Goodell:

This is a notice of the intention of Wayne T. Brooks, Director Occupational Safety & Health Services, Organization Resources Counselors, Inc., 1660 "L" Street, N.W., Washington, D.C., to appear and testify at the fact-finding hearing with respect of Possible Hazards of Vinyl Chloride Manufacture and Use, February 15.

It is anticipated this testimony will take between 20 and 30 minutes.

A brief of the presentation is: at this time there is not sufficient available information upon which to base rule making, either by emergency temporary standard or by regular rule making procedures. And, that the available time of the available qualified ~~few~~ could better be utilized in the service of employee health and safety by assuming assignments directly related to the problem than polarizing positions in the adversary procedures of rule making.

Sincerely,

Wayne T. Brooks
Director Occupational Safety
& Health Services
