Misha:

Here is how I see as the Marine Corps lead for responses being tasked.

All, please let me know if you have a different understanding so we can start working on them. Thanks.

V/r,
Craig

Subject: [Non-DoD Source] GAO 100947 FOLLOW-UP DRINKING WATER

Sir,

You met a couple of weeks ago with GAO to discuss DOD's Drinking Water

(Emerging) Contaminants Program. We have a couple of follow-up questions as

it relates specifically to PFOS/PFOA. These follow-up questions are based

on the work we have conducted so far, including our site visits and review

of provided documents.

I know this time of year is particularly busy with the impending holidays.

Schedule permitting, we would appreciate a response to these questions (see

attached) by December 21st. Please let me know if you have any

questions

or concerns with this timeline.

I am a recent addition to the team and have included my colleagues
on this

correspondence. I look forward to working with you.

Best,

Ophelia Robinson
