

October 31, 1973

Ms. Yvonne M. Kelley
Conference Coordinator
Committee for the Elimination of
Lead in the District of Columbia
Office of Child Health Advocacy
Children's Hospital National Medical Center
2125 Thirteenth Street, N.W.
Washington, D.C. 20009

Dear Ms. Kelley:

Conference on Lead - District of Columbia

Reference is made to our telephone conversation of October 30th and your letter of October 18th to Mr. George Horden regarding the Lead Conference sponsored by the Committee for the Elimination of Lead in the District of Columbia.

Enclosed are samples of literature on pediatric lead poisoning and Lead in Glazes for Art Pottery and Hobbyists, which we would be pleased to make available to the attendees of the Conference. If your group would like a significant number of these publications for distribution, please let me know the numbers required.

As I indicated in our telephone conversation, the Lead Industries Association is happy to provide assistance in the Conference. It appears that the program and panels are completed and that our contribution would be in providing educational materials, participation in discussions in the workshops, and longterm participation in your objective to eliminate lead poisoning in the District of Columbia. We would be happy to meet with you and/or representatives of the Committee with regard to any assistance which LIA might provide.

Sincerely,

Donald R. Lyman, Ph.D.
Assistant Director, Environmental Health
