Dear Mr. Howe,

Marking of Bags

I thank you for your note of 30th May and all I can tell you is that at the QAMA meeting in March, at which I was not present, all the producers except Bell stated their intention to put the warning label on all bags for all parts of the world. Under these circumstances, if Bell stood out they would be alone in their action and clearly, any extra problem arising with customers because Bell fall in line with the others must be extremely small. This being so, as there are appreciable economies to Bell in the marking of their bags the same way, I think we must agree that they should fall in line. The main point is that there is no possibility of persuading the other producers in Eastern Canada to alter their attitude.

You will, of course, feel at liberty to discuss this matter with Bell but I really cannot see any possibility of their decision being altered.

Yours truly,
