Subject: Public Corruption in EPA Contract

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Being politically prosecuted..Here is Scott Hubay of Hubay Dougherty Law firm in Cleveland, Ohio announcing his EPA and City of Cleveland and County of Cuyahoga relations. Couple that with a public records request denial and City of Cleveland Law Department Director Mark Griffin saying he reported it to the FBI on two different emails. Please cancel this and all EPA contracts of the last 6 months of the Biden Administration. You'll save billions. The EPA has been told.

Edit

in this amazing project! It is such a huge win for the local community and for the environment. Yet another test case to prove the viability of repurposing brownfields and minefields to renewable energy production.

Thank you to Peter Krouse for his reporting on our CPRG application win today. The prospect of doing clean energy development on brownfield land as a catalyst for land conservation (and park creation) can be a transformational model to combat climate change, and thank you to US Environmental Protection Agency (EPA) for investing in this with us.

The organizations of Power A Clean Future Ohio, Citizens Utility Board of Ohio (CUB Ohio), The George Gund Foundation, Cleveland Foundation, Cuyahoga County, City of Painesville, City of Cleveland - City Hall, Go Sustainable Energy, LLC, Cleveland Public Power, and West Creek Conservancy (in no particular order) all came together to figure out a project of this complexity really quickly; without that full commitment from all of those project partners, this grant award wouldn't have happened.

Specific thanks (and congrats) to Mike Foley, Valerie Katz, Douglas Lewis, Anthony
