Attention: Mr. T. H. Fitzgibbon
Maintenance Superintendent

Gentlemen:

We acknowledge your letter of August 12 requesting information on Garlock Style #5459 Packing for use on your pumps handling high caustic and heavy abrasive liquids of sodium hydroxide solution.

Under separate cover, we are sending you as requested three copies of our current catalog covering our general line of packing.

We agree with the recommendation that Garlock Style #5459 is suitable for the above mentioned service and we also refer you to description of Garlock Style #234 as listed in our catalog. The only difference in Style #234 and Style #5459 is that the latter style is made of a harder twist.

We thank you for the interest shown in our products and, if we can be further assistance to you in any way, please do not hesitate to call on us.

Yours very truly,

THE GARLOCK PACKING COMPANY
