

Mr. A. H. Cook

exposure was to commercial gasolines only.

I do not wish by this to convey the idea that we are not willing to investigate any cases of illness or injury which present the slightest justification. On the other hand, I should regard it as necessary in this instance to know what is the basis for such an investigation.

Very truly yours,

RAK:is

Robert A. Kehoe, M.D.

cc Mr. Lewis
