Re: O. H. 7083-A1
Ralph Bensinger

Gentlemen:

On February 12, 1960, a visit was made to the Goodyear Tire and Rubber Company, Akron, Ohio to check conditions under which the above named claimant had worked. The company manufactures tires and various other products.

The claimant's employment experience with this company is as follows:

2/22/51	-	5/6/52	Pipefitter.
5/6/52	-	9/30/59	Off state.
9/30/59	-	Present	Pipefitter.

As a pipefitter, the claimant worked on jobs in many different areas of the plant. He would be subjected to the dust or fume conditions existing in any department in which he would be required to work but his work in any particular department would be for only a short period of time. He would have some exposure to the various fumes and dusts common to the rubber industry. There was no exposure of industrial hygiene significance to a dust containing free silica.

Very truly yours,

DONALD W. KINSEY
Industrial Hygienist
