Dear Dr. Machle:

Tom Ronan has purchased a Stanley non-sparking scraper B-45 from the Machine Tool Supply Company at Tulsa for \$2.12. He states the instrument looks like a spatula, except that the blade is of the shape and approximately the size of a hoe blade. It may be desirable to equip our men with one of these for use at points where proper non-sparking instruments are not to be had.

We should appreciate your thoughts.

Very truly yours,

W:GCL
