Dear Administrator Zeldin:

East Kentucky Power Cooperative (EKPC) respectfully requests a Presidential Exemption under the Clean Air Act (CAA) from the compliance with the revised standards and requirements finalized in the above referenced MATs RTR rule. EKPC seeks an exemption for a two-year period from the current compliance date of July 6, 2027(as calculated, July 6, 2029) for Spurlock Station and Cooper Station, with the potential of a further extension should the reconsideration of the MATs RTR require EPA additional time. For more, please see the officially signed letter attached above formally requesting your consideration.

Should you have any questions or concerns, please contact Don Mosier, EVP & Chief Operating Officer at 859.744.4812 or myself at 859.745.9244 office. Thank you.

Sincerely,

Jerry Purvis, Vice President
Environmental Affairs
East Kentucky Power Cooperative
