

Cumulative Index for Consumers' Research Bulletins

July 1947 through December 1947

(Vol. 20, No. 1 through Vol. 20, No. 6.)

Single BULLETINS are available, at 30 cents. The month of issue is followed by the number of the page or pages on which the item appears.

Entries marked (*) are longer or more comprehensive items.

Weed killer, 2,4-D.....	July...17*	
Wool, factors causing price rise.....	Oct...37	
Worry, affecting weight loss or gain.....	Sept...29	
Wrench, jar.....	Oct...8	
plier-type, lever- or toggle-lock.....	Oct...34*	
Wringer hazard.....	July...8	

ABSORBING interest in projects which require mental concentration in addition to careful and accurate craftsmanship can help materially in diverting attention of young people from interests and activities which may lead to their getting into mischief. This is an appropriate time, we believe, to make Christmas gifts of a sort that tends to give stimulus and encouragement to a young person who gives evidence of being interested in a skillful craft or a scientific or engineering pursuit.

The toy market reflects the increasing interest in mechanical hobbies; the model airplane hobby in particular appears to have lost none of its great popularity with the youngsters. Model railroad construction and operation is popular with both young and old enthusiasts, and even the manufacturers of the low-priced or "tabletop" electric railroads now offer scale models of actual railroad equipment. Miniature racing cars and speedboats have their devotees.

Perhaps because of active participation by women in the making of war materials, an increasing number of girls appear to be showing interest in mechanical, electrical, and chemical work, and are developing scientific aptitude and skills. Girls now enter competitions on equal terms with their brothers, for example, in model airplane meets. Nevertheless, the great majority of little girls doubt prefer dolls as toys.

When buying toys of plastic material, it is advisable to make
