To: Mr. J. W. Durstina ✓ cc: Mr. E. T. Mabley
Subject: Identification of Production Materials and Components Containing Chromium and Benzene
Reference: Letter Dated 4-28-80, From J. W. Durstine to D. D. Baker, et al., Subject as Above

The Heavy Truck materials engineer has circularized the Heavy Truck design activities regarding the benzene and chromate material specifications provided with the referent letter.

This review of our materials usage did not reveal any materials specifications used by Heavy Truck which were not already on your list.

The accompanying copy of your Attachment III shows those specifications from your list which were found in the Heavy Truck North American Engineering Product Information System (NAEPIS) printout of materials released for 1980, 1981, and 1982.
