This release has generated 532 newspaper articles in 31 different states, with a readership of 32,928,512 based on the fact that when releases offer a booklet, 75% of the WRITE-INS come from places from which there are no clippings in hand.

Based only on clippings listed above, this release has appeared in 27 of the top 50 markets, 45 of the top 100 markets, and 57 of the top 300 markets. There are 352 placements from the top 50 markets, 476 placements from the top 100 markets, and 532 from the top 300 markets. Listed above are clips sent to you and placements known to exist because when a story appears in one newspaper, it automatically appears in one or more others in that group.

The cost of buying this space would have been$238704.32.

* * *

Please note: In instances where the current circulation is not available, the computer uses the average circulation for all other clippings.
