Knox 755 1952 notes

2 Promotions conditions at Bell mill
paper bags took 2 min to fill
no. 1 min cr/floorman (g.m)
"increases the capital cost" (g.m)
dust on CGM employees' eyebrows in
dusty ring spinning operation
wearing time "really shocking"
exhaust air recirculated (from collectors)

3 horrendous conditions at Atlas, too
Atlas Co-doc Rae: not known to have been
Atlas Co doc also appears to have been
ignorant abt. diagnosing A'sis (Amble, PP)
Thetford "all stoppage short of action to remove workers
from dangerous environments until claims were filed"
UK memo. boards preferable to no
one but independent boards at all to look
for disease (& Rae Case at)
Bank of Isaac Clust controls widespread at Kilk
(Wanheim); there,
spreading up "incidence & business of ring spinning
no plan for action" evident in revealed cases of
abnormality" critical of plant medical care
Wanheim med. dept. not concerned with
dust counts"
