Q You mentioned Lanoxin which is a heart medication.

Was there anything wrong with Mr. Vandergucht's heart at that point?

A I don't know. That must have been described either by Dr. -- I would think Dr. Foard, and if it was, it was not, to my knowledge, described earlier in his treatment. It must have come sometime later.

Q Could that have been a result of the fluid buildup that was putting pressure on --

A I would defer to Dr. Foard for that.

Q Doctor, you referred to something called a paracentesis. If you could step over to the jury.

That is when you drained the fluid; is that correct?

A That is correct.

Q You actually did that to Mr. Vandergucht on about six occasions?

A That is true.

Q Can you show me on my body where you would do that and describe the type of instrument you would
