L. Ott	Gentex Corp.
J. W. Petrey	Kappler, Inc.
P. Mann	Kappler, Inc.
G. Willis	Kappler, Inc.
F. Vero	Lakeland Industries, Inc.
R. J. Smith	Lakeland Industries, Inc.
M. Weisburd	Lakeland Industries, Inc.
C. A. Calk	Mar Mac Manufacturing Company
J. S. McLeod, Jr.	Mar-Mac Manufacturing Company
C. J. Kairys	Mine Safety Appliances Company
W. Sparfel	Safety First Industries
J. Moore	Sager Corporation
R. Treveiler	Standard Safety Equipment Company
R. J. Minnette	Steel Grip Safety Apparel Company
S. Garner	Wheeler Protective Apparel
D. Schmidt	Wheeler Protective Apparel
H. L. Wheeler	Wheeler Protective Apparel
W. E. Wickens	ISEA Counsel
P. A. Gleason	ISEA Director of Communications

The meeting was called to order by Chairman Gaukerke at 8:00 A.M. and roll call was taken. The minutes of the prior meeting on November 18, 1987 were approved as previously distributed.

PLAINTIFF'S EXHIBIT

SAG-41

1. Committee reports were given as follows:

A) ASTM - Chemical

1. There was a unanimous vote that a letter should be sent to ASTM from ISEA stating a position against "recommended" language in labeling proposal because of its confusing nature.
2. Heat Protective Clothing - Update only - No action items.
3. It was announced that the ASTM F-23 Symposium on Protective Clothing will be held in San Diego January 15-17, 1989.
4. A new standard test method for cut resistance is out to ballot.
5. A New Bylaws Ballot is also out for review.

B) ASTM - Heat - no action items

C) NFPA - Suits and Third Party Certification:

1. Three new proposed standards were discussed.
2. Two standards (1991 and 1992) were sent to the Technical Committee for voting.

While the ISEA SWAG wholeheartedly supports the concept of third-party certification, because of considerable confusion in NFPA's process the ISEA SWAG will support a negative vote to 1991 and 1992 Third Party Certification requirement in December 1988. There was a unanimous vote in favor of this action.

D) NFPA - Gloves

- Update on "1 Inch Over Wrist Break" design requirement
- Update on "F1060 TPP Hot Surface Contact Requirement
- Update on "D4108 TPP Open Flame"

E) EPA Pesticide Program

- An Update was given on Heat Stress concern and inconsistent PPE Requirements (Respirator vs Clothing) 40 CFR 156 and 70). ISEA provided comments to EPA on this proposal

F) Superfund - SARA

No new updates

2. There being no further business to come before the meeting a motion to adjourn was adopted.

Respectfully submitted,

Chris Kairys/FEW

Chris Kairys
