Dear all,

Attached for your information a draft of the press release we intend to publish after the RoI entry as well as the consultation are public/online to also advertise this consultation round.

I also attach the draft of the information to be published on our helpdesk webpage in the section "German restriction proposals" (https://www.reach-clp-biozid-helpdesk.de/DE/REACH/Verfahren/Beschaenkungsverfahren/Vorschlaege/Vorschlaege_node.html currently only available in German but an English version will then be available for the PFAS).

Kind regards,

for the German CA

Subject: NL communication Rol

Dear all,

As promised yesterday, here some communication activities from the Netherlands (in relation to Rol).

1. Script of the video message from the Minister: see word document. It starts in Dutch, but at the bottom I included an automatic (deepl.com) EN translation.
2. EN version of the infographic of the timeline (pdf). I hope this is the final version, but possibly some minor changes will be made
3. On our RIVM website we have a page on the PFAS restriction (which we still have to update)
[PFAS restriction proposal | RIVM](#)
4. In September/October we will publish an e-magazine on the PFAS restriction with interviews with [redacted] (COM-ENV), [redacted] (EEA), [redacted] (CEFIC), [redacted] (ChemCon/Haskoning), [redacted] (ECHA)

Please let me know if you have any questions.

[redacted]
Note that I have been interviewed by ChemCon; this interview is uploaded on youtube:

The ChemConnection of June is now live on our youtube channel (youtube.com/ChemConConferences). A teaser for the interview is also in the ChemConnection June video (± 4.20 seconds); <https://youtu.be/xgyaaA3PPKM>
