Re: Nevada Power Company

Dear Mr. Neal:

Enclosed you will find the original computer run dated March 22, 1989, concerning the PCB transformers changed out by our client. This run has been updated and is current. It is also perfectly readable and should eliminate your earlier concerns.

At this point, we are dissatisfied with the progress of this matter. Things are moving very slowly. Time lapse, alone, will force us to file suit as no tolling agreement has been executed in this case.

Regrettably, if we have not commenced good-faith negotiations on this matter within the next two weeks, we will draw the appropriate inferences from such failure to respond.

If you have any questions, please call me.

Sincerely,

THOMAS E. KOTOSKE
