SUBJECT: Delco Moraine Non-asbestos Samples

Per our conversation, Earle Bretz has made arrangements whereby you can send an order directly to:

Mr. G.P. Baynes, Chief Engineer
Delco Moraine Division
General Motors Corporation
1420 Wisconsin Boulevard
Dayton, Ohio 45401

I suggest you order six sets of Delco Moraine 8032 parts for the 1980 "X" car disc brakes. I would also suggest you write the order as undrilled friction pads although you may have to take assemblies.

Also order six sets of Delco Moraine 9015 material for "A" car drum brakes. These are integrally molded onto drum brake shoes, and you will only be able to get assemblies.

We do not have a specific cost although Gene Baynes indicated he would supply them "no charge" with an order.

If you have any questions, don't hesitate to contact me.
