

PPG INDUSTRIES (CARIBE)

P. O. Box 3472

Ponce, Puerto Rico 00731

A Branch of PPG Industries, Inc.

ANNOUNCEMENT

As you know, because of our V.C.M. Exposure Control, recently some Caribe employees have been undergoing some special medical tests. These tests, although they are a different type will be done on a regular frequency like the test we have been doing since we started the plant on all Cl₂ personnel.

Through these examinations it was determined that José Oliveras, although in perfect health, to remain on the most conservative safe side, should be transferred to another department because he might be more sensitive to organic vapor. His new title is Preventive Maintenance Coordinator and we all wish him the best of luck in his new job.

J. M. Denison

V. C. M. Superintendent
