900 S.W. 5th. Avenue
Portland, Oregon 97204

Dear Ed:

Cleveland has advised today that the new "Caution Clause" decorated plate will be available at the plant for manufacture the week of July 22nd.

With this in mind, please advise soon now what will be needed for Akron, Marietta, Chicago and Milford plants for the next two or three months' schedule. Both the plate and the decorating supply are tight now, Ed, and I need your help in setting up some kind of production plans for Cleveland to follow if they are to keep all plants going properly.

Also, since Acme plant is still going to use the regular design without the "Caution Clause", I'll have to have some estimate from you of their needs of that plate for the next several months. Right at the moment, Cleveland has only enough plate for 3,300 pails for Acme so they are awaiting my instructions.

Please get to this and get the necessary information to me as quickly as possible, Ed, so that we don't fall down on our service to your plants. Awaiting your word,

Sincerely,

Lee Mason
President.

TERMS

SALESMAN LM		SHIP VIA	DATE REQUIRED	F.O.B. #		
QUANTITY	STOCK NUMBER/DESCRIPTION			PRICE	PER	AMOUNT
1	Make the following change in customer's "Ready Mix					
2	Joint Compound" design:					
3	On both left and right panels, insert "caution"					
4	panel outlined with solid black line as per enclosed					
5	B & W proof. This in same green color print as rest					
6	of design.					
7						
8						
9	NOTE: This design will be used for all pails shipped to					
10	Chicago, Akron, Marietta and Milford plants.					
11	Acme plant product does not contain asbestos					
12	so they will continue to use present design.					
13	* Lee Mason will get estimated useage of both					
14	designs from Ed Aasen of Georgia-Pacific's					
15	Portland office.
