

Bob,
I didn't know
what else to do with this!

Mr. W. H. Abbitt
Northwestern University
Evanston, Illinois

Dear Mr. Abbitt:

I have your letter of November 3rd which has some very interesting suggestions in it. I am taking the liberty of sending copies of your letter to our Research Laboratory and also to Dr. R. A. Kehoe who is in charge of our medical activities. I am sure that they will have more ideas on the subject than I.

Very truly yours,

Graham Edgar
Vice President
