Gene Gherke of Goodyear, phoned in these freight charges of Rogers. These cover the last trailer shipment where Rogers had to bring in a supervisor to take the trailer across the picket line. Gherke wants to know if any of these charges belong to Monsanto.

Monsanto agreed to pay demurrage costs up to the time the supervisor took command of the trailer. I thought Rogers would bill us separately, but it looks as if Goodyear got the total bill.

Please advise those charges which are Monsanto's responsibility.
