WASHINGTON

OFFICE OF THE CHIEF COUNSEL

June 9, 1936

Surgeon General
Public Health Service.
Washington, D. C.In re: Cushing Refining & Gasoline Co.
Docket 2825

Sir:

Reference is made to Public Health Bulletin No. 163 pertaining to the use of tetraethyl gasoline in its relation to public health and the report of a committee of seven recognized authorities, appointed by the Surgeon General of the United States Public Health Service, as to the health hazards involved in the retail distribution and general use of tetraethyl lead gasoline motor fuel, prepared by:

W. H. Howell
A. J. Chesley
David L. Edsall
Reid Hunt
W. S. Leathers -
Julius Stieglitz
C. E. A. Winslow.

This Committee reported, as shown by page 110 of the bulletin cited above, that in their opinion there are at present no good grounds for prohibiting the use of ethyl gasoline, which is the principal issue in the above entitled proceeding.

R. W. G.

It is accordingly asked that you be kind enough to let me have the present address of each member of this committee, insofar as the same may be known at this time, together with a statement as to whether or not any of them are in the Government service

Very truly yours,

W. T. Kelley
Chief Counsel
