PLAINTIFF'S EXHIBIT

MON-2434

September 9, 1985

TO: Member Representative/
Facility Manager

The Chemical Manufacturer's Association has taken a very important chemical industry initiative by establishing the Community Awareness and Emergency Response (CAER) Program. The CAER system depends upon individual facility managers to work within their communities to coordinate emergency response planning, and Texas Chemical Council (TCC) has an important facilitating role in helping this program to be successful in Texas.

As you know, we co-sponsored a workshop with the CMA on June 5, 1985 to describe the CAER program to our members. At the same time a Community/Industry Emergency Response Committee within TCC was established with the following major objectives:

- Assist local facility managers as needed in implementing the CAER program
- Monitor progress and promote information exchange
- Develop/implement effective public and government relations programs
- Maintain liaison with CMA and Chemical associations in other states
- Coordinate CAER with other issues such as Right-to-Know and transportation safety as well as clarifying possible areas of overlapping jurisdiction among agencies

Attached you will find a list of members serving on this committee. The committee is actively pursuing these objectives and appreciates your support. Please contact them with your questions and suggestions.

Also in June TCC asked its members to forward information to identify facility managers for plants, terminals and warehouses. These facility managers will be the principal contacts for the CAER program and the current list of facility managers is also attached. Please review this information and provide the Austin office with corrections/additions so that we can maintain an accurate listing.

SC

009718

LAM010931

Included with this letter is a TCC CAER survey form which we are asking each facility manager to complete and return to TCC by September 27th. It is important to know the progress being made with CAER in Texas and we are planning to report this information to our membership at the Annual Meeting on October 17th. We are also asking each facility manager to determine if his company plans to be a part of CHEMNET. A list of members to date obtained from CMA is attached.

The CAER program is an important national effort to formalize and coordinate emergency response planning in the chemical industry. It is also a timely opportunity to improve community/government relations and to enhance the public's perception of our industry. Texas Chemical Council encourages its members to fully support the CAER initiative and we will do all that we can to assist you in this effort.

Sincerely,

Paul E. Hime
Chairman

TCC CAER SURVEY

1. Facility _____
2. Manager _____
3. Community (primary, secondary) _____
4. Is coordination with other local industry:
 - a. Are you participating in local industry group? (Yes/No)
 - b. If yes, please attach a list of other participating facilities.
 - c. Spokesman for group if one has been appointed _____

5. Implementation Steps - 1985

	<u>YES</u>	<u>NO</u>
a. Obtain CAER Handbook	_____	_____
b. Attend CAER Workshop	_____	_____
c. Review plant emergency plan	_____	_____
d. Discuss CAER with employees	_____	_____
e. Initiate discussions with local community officials	_____	_____
f. Establish Coordinating Group	_____	_____
g. Work toward integrated community emergency response plan underway	_____	_____

6. Is your company planning to be part of Chemnet?

_____ Yes; _____ No; _____ Undecided

7. Do you see a need for additional CAER workshops? _____ Yes _____ No
How many individuals would attend? _____

8. Community Awareness Activities? (Education/public relations) _____

9. Problems encountered/help needed _____

RETURN THIS FORM TO:

TEXAS CHEMICAL COUNCIL
1000 Brazos, Suite 200
Austin, Texas 78701-2476
