

My dear Bert:

Thank you for your long & interesting letter. I squelched all the thoughts of you writing it all in my hand! Parthenon, since I have today heard from the Editor of the BMS that he does NOT propose to publish that letter. I'm glad he has taken notice of the point I raised in my letter to him. I have sent the decision.

I find your letter very helpful. Parthenon, in the question of most leaders in children - I was so exactly on my experience on the last Syon during which the children's hope have reached in no further than most leaders.

I was also very interested to have the inside you in the 3rd Edition. Anyway thank you very much for so quickly keeping to our help. I'm glad however it wasn't needed. I kindled regards to you both

Yr son
