Dear Mr. Witcher:

Attached are two documents that you might find useful in developing your PCB handling guideline, (1) an MSDS for PCBs and (2) a "draft" PCB Handling Guideline.

The draft guideline is 1980 vintage and should be updated to current PCB regulations. However, it should serve as a good format and model.

If you have any questions I'll try to answer them.

Yours very truly,

John H. Craddock
